Washington, Aug. 9.—Major-General Lawton is to have command of all the cavalry troops in the Philippines when the active campaign opens in the fall. The plan of campaign decided upon by Major-General Otis contemplates a larger use of cavalry than in the last campaign. He already has in the Philippines the entire Fourth Cavalry. He has been authorized to organize one of the provisional regiments in the Philippines as cavalry, and eight companies of the Third Cavalry are under orders for Manila. It is probable that other regiments will be sent out so as to give General Lawton a strong cavalry force.

Washington, Aug. 9.—The state department has received from the Italian authorities a copy of the complete report made by the Marquis Romano, secretary of the Italian embassy here on his personal investigation of the recent lynching of five Italians at Tallulah, La.

The report presents the affair in a serious light. As a whole the Italian authorities view the matter of the lynching as one of unusual atrocity and without mitigating circumstances which had been urged in previous affairs of this kind.

Washington, Aug. 9.—The war department is making every effort to comply with the recent request of General Otis for a number of machine guns in order that they may reach him in time for the campaign which is expected to open with the dry season. The department has decided not to send to the Philippines the Sim-Dudley guns but will confine the selection to the types now in use in the army.

Bismarck, Aug. 9.—The counsel for Oregon met today at his office in conference with the heads of the Oregon party and consulted on the general aspect of the affairs. They went there after they had examined the documents of the secret dossier in the judges' room. They do not see any possibility of repeating the judgment of 1894.

Birmingham, Ala., Aug. 9.—The contest in Kentucky may have an important bearing on the status of the United States senate on silver which is now a tie. If the gold senator of Kentucky and one in Louisiana are displaced by silver men it would give the silver forces two majority.

Dubuque, Iowa, Aug. 9.—Manager Houseman today matched Tommy Ryan, of Syracuse, and Jack Moffatt, of Chicago, to box for the welter weight championship of the world.

### A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried every kind of medicine, but nothing seemed to do her good. I saw an advertisement in our paper for Chamberlain's Colic, Cholera and Diarrhoea Remedy, and I bought a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs. Geo. F. Burdick, Liberty, R. I. For sale at Bisbee Drug Store.

Koloid Dyspepsia Cure cures dyspepsia because its ingredients are such that it can't help doing so. "The public can rely upon it as a master remedy for all disorders arising from imperfect digestion."—James M. Thomas, M. D., in American Journal of Health, N. Y. Copper Queen store.

### Wall Paper.

Our line of wall paper is the very latest, being designs of 1899.

Reports from Paris say that Fu Paty de Clam is ill with a liver attack. Maybe de Clam's gall has "lusted." The gall of the average French army officer is his principal claim to distinction.

## Controlling Laws in Political Economy.

First—There is no such thing as intrinsic value. There is but one kind of value in economics, viz: purchasing power.

Second—All money, including gold, is "fiat" money. All money is created by law, effect, "fiat," of government.

Third—Demand and supply make and control all values.

Fourth—Cut down the quantity of money in circulation one-half (other conditions remaining unchanged) and prices of wheat, cotton and other things, as a whole, will fall one-half.

Fifth—Double the quantity of money in circulation (other conditions remaining unchanged) and prices of the people's products will fall one-half.

Sixth—Increase other forms of property without increasing the quantity of money in circulation, and prices of the people's products will fall one-half.

Seventh—There is no such thing in reality as "50-cent dollars." It is not the value of the metal a dollar is made of that controls its value as money; it is the fact that it is a dollar, and is legal tender, that gives it its value as money.

Eighth—The men who have so much to say about 50-cent dollars are passing them, right now, for 100 cents—thus proving their statements untrue.

The foregoing elementary principles of political economy are sanctioned by all the great writers on money for 1500 years past, and the great money lenders of Europe of today. Anybody can figure from the above eight propositions whether we should restore silver and have "more money and less misery" or not.—George Prentiss.

It was in the good old days when the narrator of this story was regarded as quite a respectable young man, in the beautiful city of Philadelphia. He was young and innocent in those halcyon days, and the first dinner party he went to puzzled him just a little. In the best parlor were assembled about a dozen of the finest ladies that Philadelphia had ever produced, and they were gotten up—or down—in the most delectable style. "Guess I've gotten into the wrong room!" he murmured to one of the servants. "No, that's all right," said this lady smilingly at him. "You are just what we needed here," said another, and then, when he was alone, he was surprised to find that he was not alone.

A sale of a group of mines in the Aubrey district has been made to the Midas Mining and Milling company by E. Ogden and Lew Blakely. The Midas Mining and Milling company is an organization composed of W. G. Blakely, G. F. Sheldon, Harry McComb and Peter Schaeffer. Messrs. Sheldon and Schaeffer are in Kingman. The new company will put in a mill on the Big Sandy, and will immediately begin development work on the newly acquired property. Messrs. Sheldon and Schaeffer are residents of Los Angeles, but will look after the business interests of the company at this point. The mines are excellent properties, and by judicious management ought to be brought into the dividend-producing class within a very short time. Arizona Miner.

The American miner has used in the world a remedy called a "dry" for a long time. It is a fact.
